

OUTREACH PROGRAM

Background

This Division believes that learning is a life-long journey and supports the provision of learning and growth opportunities. We provide an educational alternative for students who, due to individual circumstances, find that the traditional school setting does not meet their needs. The program allows students to access resources that improve their ability to succeed academically and socially in an environment permeated with the Catholic faith. A flexible approach is taken to teaching and learning in recognition of individual student needs.

The Division supports the establishment of outreach programs which will provide a supportive non-traditional secondary school for students who require an alternative program.

The outreach school will work with various community partners such as Family Community Support Services (FCSS), Catholic Social Services, the Youth Volunteer Centre, Linking Generations and other potential community partners and local parish communities to attempt to meet the students' needs.

This outreach program will serve students of junior and senior high school age as well as adult learners.
