### **Expected Benefits**

- Is feasible based on facility constraints and ability to expand
- K-6 students attend school closest to where they live
- Student cohorts are not separated when transitioning to 7-9.
- Utilized major thoroughfares for boundaries. Neighborhoods attend school together
- Expands OLPH, which is the school best suited for modular expandability
- Less disruption of current Northern students
- Continues single track French culture of FI program

### **Expected Challenges**

- Significant movement of K-6 students in Southern Sherwood Park
- FKK opens up quite small in order to accommodate long term growth from Salisbury and Hillshire
- Middle school model is eliminated. Grades 5-6 access to CTF options greatly reduced.
- Early years schools have very high utilization, which will result in higher class sizes and potential inability to offer pre-kindergarten and out of school care.
- St. Theresa significantly exceeds its gymnasium space as Cambrian enrolments begin entering the system.
